BUSINESS CENTRAL

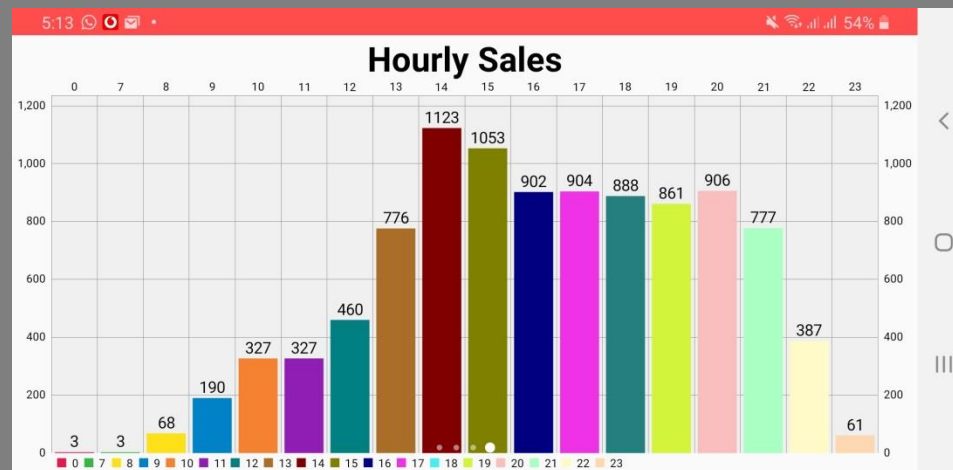

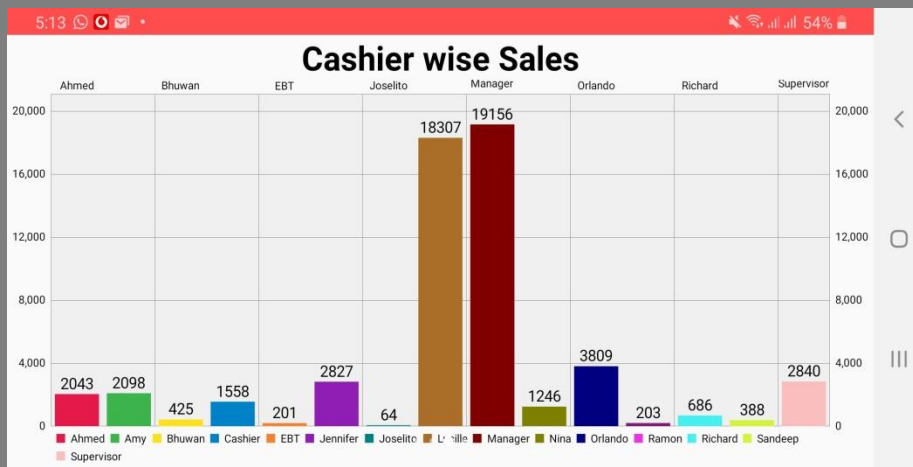

## Your App, Your Way

Put intelligence in the hands of your workforce and transform applications and business processes. There's never been a better—or more critical—time to GO mobile

## Analytics on the go for Users

Accelerate digital transformation and the adoption of analytics throughout your organization by making analytics easy, convenient and user friendly.

Every minute spent on the APP is another chance to engage, increases the insight into the financials of your business and give your employee greater cognizance in into the data, then translate those into upsell opportunities

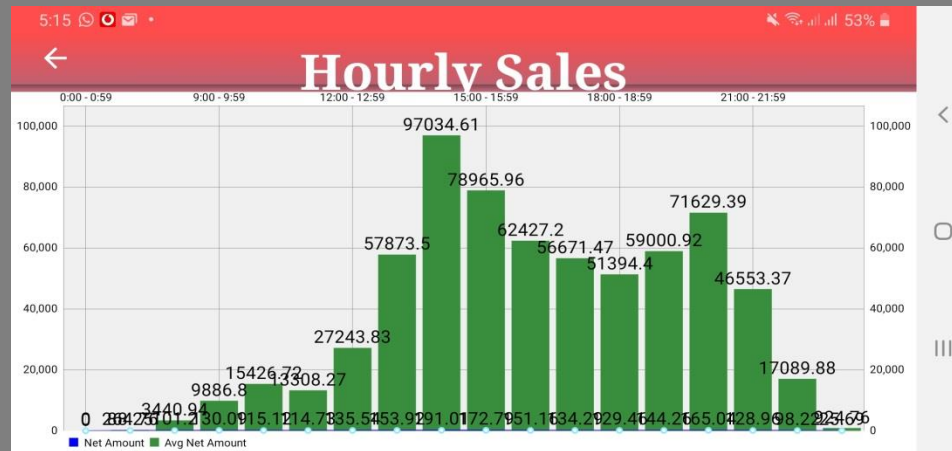

Discover how going on an APP can empower your enterprise from executives to analysts, by putting real-time insights in employees' hands with EBT REPO APP. Organizations empower employees to make better decisions from any location and anytime.

## Raising The Bar For Mobile Reporting

Swift Updates, Graphical Reporting and Instant Sharing are all part of what has made mobile today's preferred platform. Take advantage of these elements to make getting, understanding and sharing dashboards and insights easy for your employees

## Live Analytics

See Real-time, what is happening – stock levels, sales update, sales returns, cash inflow, Credit Control, Corporate Sales, Top 10 Products and Fast Moving Items.

## INTELLIGENT ANALYTICS

Data isn't just data with EBT REPO APP. We help you build powerful, meaningful, actionable insights so you can take confident steps to improve business performance.

## VISUAL ANALYTICS

Clear, clean and accessible information in a format that is easy to understand, digest and share.

## COMPREHENSIVE ANALYTICS

EBT REPO APP means no blind-spots. In one place, you get a complete and comprehensive view of the technical performance of your business.

## Reduced time to information

If you can get the information quickly, even in real-time, you can see changes sooner and react faster. Having your analytics available on your mobile device gives you access to your data and performance at any time, anywhere.

## Not at your desk? Not a problem!

NAV & LS reporting dashboards are amazing when you are in front of your computer. But what about all those other times when you need quick access on-the-go? EBT REPO App, now available on both [Android](#) and [iOS](#) makes measuring your business performance on-the-go simple and straightforward.
